

ELECTRICAL & DATA INSTALLATION ENGINEERS

Cosgriff Whitehouse Electrical Ltd

HEINRICH GEORG UK

Unit 8 Dunstall Hill Estate, Gorsebrook Road,
Wolverhampton, WV6 0PJ

Heinrich Georg are a company that specialise in and have developed from a traditional background of steel and aluminium process equipment into its current position as an all-round service and special machine supplier to many areas of the industry.

CWE assist Heinrich Georg on the electrical installation of their machinery for their clients. Working around the country and to strict deadlines to ensure that Heinrich Georg's clients are left happy and satisfied with their new machinery and therefore Heinrich Georg are happy with CWE.

EUROCLAD CARDIFF

Disconnect control panel and mark cables for reconnection

As part of a strict one-week deadline CWE carried out the disconnection of an old control panel and the connection of new.

Works included -

- Disconnect existing control panels
- Mark cables for reconnection to new panel
- Carryout connections to new items on plant
- Produce electrical test certificates

TESTIMONIAL

"Massive thanks to the engineers who completed the installation at Euroclad, Cardiff. They did a brilliant job very neat and tidy and really put in the hours to get the job done in such a small space of time."

Anthony Mason, Heinrich Georg UK

ARCELORMITTAL HALESOWEN

Upgrade to Slitting Mill

Again as part of a strict one-week deadline CWE carried out an upgrade to the sites control panels to allow for an upgraded Slitting line.
