ELECTRICAL & DATA INSTALLATION ENGINEERS

St Nicholas Court Farm

Ramsgate, Kent, CT12 5DL

Completed First Quarter 2013

Owner and operator St. Nicholas Court Farms Ltd - Mr. Jim Page.

CWE Ltd Completed their third farm based anaerobic digestion plant in Kent, working for MT Energie UK Ltd and St Nicholas Court farm direct.

The plant was a typical 3 tank system incorporating a separator, solid feeder, mix box and MT Energie standard control room positioned between two tanks.

To ensure compliance with BS7671 2008 (2011) CWE Ltd worked closely with MT Energie's engineers at every stage of construction and final commissioning.

Their project also included for the site:

1. Mains cables LV switch panel via change over panel to MT Energie main control panel in pump room 380V 400V TPN.
2. Mains cables from V switch pane to 2G combined heat and power 527Kw.
3. Mains cables from auxiliary standby generator to change over panel.

The whole plant was completed to program despite the onerous weather conditions experienced during spring 2013.

CWE Ltd are committed to exceeding customers expectations, and delivering complete customer satisfaction, ensuring a continued excellent working relationship for any future expansion plans on existing or new proposed anaerobic digestion plants in the United Kingdom.

Brickheath Road, Wolverhampton, West Midlands, United Kingdom WV1 2SR
